## Summary

Product designer with deep expertise in designing scalable loyalty and rewards ecosystems end-to-end through teamwork

## Experience

### Product Designer | CarltonOne Engagement | May 2022 – Sep 2025

- Led UX strategy for a **0→1** Wallet product, completing **5** competitive analyses, balancing monetisation with user trust in points redemption, and delivering a PoC in **3** days, securing C-suite and investor sign-off.
- Eliminated redundant components and UI inconsistency by co-building a design system with engineering, standardising components across **4** programme types and accessibility standards, cutting delivery time by **~33%**.
- Solved a scalability bottleneck by conducting user research and designing reusable customer-facing loyalty programme templates across the omnichannel ecosystem, cutting delivery from **7 to** up to **2** days and enabling **100+** programme launches contributing to **30%** revenue growth.
- Reduced admin dependency in CMS by collaborating with the Product Lead and engineers to introduce varied configuration options, plain-language controls, and visual thumbnails, enabling self-serve programme management and cutting support tickets from **5 to 2** per launch.
- Reduced rewards discovery flow in storefront from **4 to 2** clicks by conducting UX audit and user behaviour analysis, then reorganising information hierarchy through header redesign and a full reward categories mega menu.
- Facilitated an **8-week AI** workshop to close the capability gap, covering trends, prompt engineering, and rapid prototyping to accelerate exploration and iteration, cutting PoC delivery time by **~67%**.

### UI Developer | Vinple | Jun – Sep 2020

- Enhanced a consumer-facing Soft Skill Analysis feature by implementing dark mode and a responsive layout using TypeScript, HTML, and CSS, improving readability and usability across devices.
